# Push()

- It is a method in Javascript that will add an item at the end of array.

# Pop()

- It is a method in Javascript that will remove an item at the end of array.

**shubhamsingh15**

# Code

## Push()

index.js ×

```
1  const random=["shubham","singh"]
2  random.push(15)
3  console.log(random)
```

## OUTPUT

```
[ 'shubham', 'singh', 15 ]
```

**shubhamsingh15**

# Code

## Pop()

index.js ×

```
1 const random=["shubham","singh",15]
2 random.pop(15)
3 console.log(random)
```

## OUTPUT

```
[ 'shubham', 'singh' ]
```
